Gravity was the first book I read by TG, and I loved it. Lynn Farrin mentioned The Apprentice which I am reading now and thoroughly enjoying.

I also recently read The Mephisto Club but did not find this book the same quality as her others. :(

This is my first Tess book as well. I am not a big mystery fan but I love it so far. only 100 or so pages in. I have a bunch of questions too. the margins are getting full.
